GURS/17

MASTERCLASS

LONDON 2017

11th Masterclass of GURS/

1st Joint Meeting of Adult & Paediatric GUR-Surgeons

Wednesday 1st - Friday 3rd November 2017
UCLH Education Centre, 250 Euston Road, London

11th Masterclass of GURS/ 1st Joint Meeting of Adult & Paediatric GUR-Surgeons

"We are back at the UCLH Education Centre! Last year's 10th anniversary at the Royal College of Surgeons of England was a roaring success with an overall satisfaction rating of 4.7 / 5. Unfortunately, we are not able to host the cadaveric hands-on part of the Masterclass this year due to major building works at the RCS.

Starting the 2nd decade of our 'GURS-Masterclass', we thought it's about time that we integrate Paediatric GUR-Surgery! In my humble opinion, we should ask the question who has the greatest experience and technical skill to take care of patients with specific GUR-Surgery requirements, whatever their age!

I cordially welcome our Paediatric GUR-Surgery Colleagues and hope that our common interests will lead to an exiting exchange of experience and ideas, fostering of durable interdisciplinary relationships, and learning from our most eminent colleagues in the field!

We will introduce semi-live video sessions to complement the live-surgery cases so that a wider spectrum of more complex surgery can be demonstrated in the time available.

The Masterclass Programme will be accompanied by a Masterclass 'talking slides & procedures' website, which allows delegates to go back after the event to repeatedly view the live-surgery or videos of particular interest in order to deepen learning. In addition, for academic GURS news, we will host a peer-reviewed 'e-poster session' on our website.

An informal Canapé reception will take place on the first evening to catch up with friends & colleagues, providing an atmosphere for hopefully making lots of new friends during this three-day event, but we still leave enough room for delegates to have time in the evening to explore the most wonderful cultural life of London!

... hope you can join us in London 1-3 November 2017!"

Daniela Andrich MD MSc FRCS
Course Organiser

e-Posters

Delegates are encouraged to submit abstracts of their academic work. The non-moderated posters will stay displayed and archived on the Masterclass website. The 'best Masterclass poster' is rewarded with free admission to next year's GURS Masterclass.

Live-Surgery

A variety of urethroplasty techniques, andrological, paediatric and major reconstructive urological procedures will be demonstrated. Surgery takes place at UCLH Westmoreland Street Hospital and is transmitted via live-link to the state-of-the-art UCLH Education Centre.

Semi-Live Video presentations

Expert moderated semi-live video presentations complement the live-surgery with a wider spectrum of operative procedures and to demonstrate more complex cases.

Lectures

Short focused lectures will provide the academic background and complement the surgical procedures to facilitate interactive discussion.

AIM

To illustrate the importance of aetiology in the decision making of GUR-Surgery by example of live and semi-live surgical procedures, encouraging interactive and interdisciplinary discussions.
