CRU16

Dear colleagues and friends:

This year we will celebrate the meeting of the **Spanish Urological Reconstructive Surgery Group (CRU-AEU)** in Madrid in conjunction with the **EAU Section of Genito-Urinary Reconstructive Surgeons (ESGURS)**.

The Chairman of ESGURS Dr. R.Djinovic, the local coordinator of the meeting, Prof. I. Moncada, and myself have decided to have both meetings in the same venue and have a coordinated programme. The venue will be in the October 12th Hospital in Madrid, thanks to the collaboration of Dr. J.Romero-Otero, which will make live surgery transmission much easier.

The meeting of CRU-AEU will be held on Thursday 6th October, and will include the participation of the following guest professors: Dr. G. Barbagli, Dr. R.Dahlem, Dr. R. Djinovic, Dr. E.Lledó and Dr. J. Romero-Otero. The meeting will be in Spanish, but we will have simultaneous translation Spanish-English.

The ESGURS meeting will be held 7-8 October in the same auditorium. The scientific programme will include a larger faculty and will also include live surgery. You may find the programme of both meetings on the websites of AEU and EAU.

The registration of each meeting, can be done separately through the AEU (CRU) and the EAU (ESGURS), although those who want to attend both meetings, can make both simultaneous registrations at a lower price through the EAU registration webpage. I invite everyone to participate in this new annual meeting of Spanish Reconstructive Surgery Group and encourage everybody to also attend the very attractive ESGURS meeting.

Best wishes,

Luis Martinez-Piñeiro

National Coordinator Urological
Reconstructive Surgery Group-AEU

PROGRAMME

II Meeting of the Spanish Group of Genitourinary Reconstructive Surgery (CRU) in collaboration with the EAU Section of Genito-Urinary Reconstructive Surgery.
